

Shawnee County

Estimated Economic Impact of Agriculture, Food, and Food Processing Sectors 10/13/14

25 agriculture, food, and food processing sectors were analyzed to determine their overall contribution to the Shawnee County economy.¹

These 25 sectors have a total direct output of approximately \$1759 million and support 3,457.9 jobs in Shawnee County. Running the model for all 25 sectors simultaneously produces the following results:

Agriculture Contribution in Shawnee Co									
Impact Type ²	Employment	%	Total Value	% of Gross	Output ⁵	% of Gross			
		Employment	Added ³	Regional		Regional			
				Product ⁴		Product			
Direct Effect	3,457.9	3%	369,196,796.2	4%	1,758,551,085.5	19%			
Indirect									
Effect	2,428.5	2%	264,292,491.8	3%	425,256,003.9	5%			
Induced									
Effect	1,790.9	2%	137,108,195.8	1%	212,696,294.2	2%			
Total Effect	7,677.3	7%	770,597,483.8	8%	2,396,503,383.6	26%			

As shown in the above table, agriculture, food, and food processing supports 7,677.3 jobs, or 7% of the entire workforce in the county. These industries provide a total economic contribution of approximately \$2397 million, roughly 26% of Gross Region Product (GRP). As noted below in the calculation of Gross Regional Product, imports and institutional sales are subtracted. Therefore, counties that import a relatively large amount of goods and services will have a reduced GRP which may lead to agricultural output being greater than GRP.

Another metric used to calculate the importance of sectors in an economy is their value added as a percentage of GRP. Total value added by the 25 agriculture, food, and food processing sectors is approximately \$771 million, or 8% of the GRP. This indicates that personal income, business income, and taxes generated by these sectors account for 8% of the total economy.

¹ Article on building a contribution analysis in IMPLAN that avoids double counting: http://www.implan.com/index.php?option=com content&view=article&id=660%3A660&catid=253%3AKB33&Itemid=70

² Direct, indirect, and induced effects sum together to estimate the total economic contribution in the state. **Direct effects** capture the contribution from agricultural and food products. **Indirect effects** capture the economic benefit from farms and agricultural businesses purchasing inputs from supporting industries within the state. **Induced effects** capture the benefits created when employees of farms, agricultural businesses, and the supporting industries spend their wages on goods and services within the state.

³ Value added = labor income + indirect business taxes + other property type income.

⁴ GRP = final demand of households + governments expenditures + capital + exports - imports - institutional sales.

⁵ Output = intermediate inputs + value added.

The following tables document the overall summary numbers of the model, top industries affected by employment and output, and a listing of all industries that were analyzed.

In the top ten by employment, All other food manufacturing is the top employer in the agriculture industry with 944.1 employees. This table also shows the amount of jobs that are created by the agriculture industry in Shawnee County.

Description	Total Employment	Total Output
All other food manufacturing	944.1	317,147,360.3
Snack food manufacturing	846.8	615,503,498.2
Grain farming	529.0	24,609,819.3
Wholesale trade businesses	457.4	106,648,650.6
Dog and cat food manufacturing	447.1	597,903,209.7
Food services and drinking places	324.2	18,240,294.5
Management of companies and enterprises	317.4	73,231,694.5
Cattle ranching and farming	147.1	18,437,105.5
Services to buildings and dwellings	145.1	8,354,682.0
Transport by truck	135.4	21,372,995.7

The All other food manufacturing industry directly contributes approximately \$317 million to Shawnee County's economy. This table also shows how much revenue is generated in other industries by having a strong agriculture industry.

Description	Total Employment	Total Output
All other food manufacturing	944.1	317,147,360.3
Snack food manufacturing	846.8	615,503,498.2
Grain farming	529.0	24,609,819.3
Wholesale trade businesses	457.4	106,648,650.6
Dog and cat food manufacturing	447.1	597,903,209.7
Food services and drinking places	324.2	18,240,294.5
Management of companies and enterprises	317.4	73,231,694.5
Cattle ranching and farming	147.1	18,437,105.5
Services to buildings and dwellings	145.1	8,354,682.0
Transport by truck	135.4	21,372,995.7

Below is a summary of all agriculture data with employment levels and output level. These values can tell how many jobs are represented by each agriculture sector and the output they contributed to Shawnee County's economy.

Description	Employment	Output
Oilseed farming	132.03	16,779,718.40
Grain farming	528.99	24,281,755.45
Vegetable and melon farming	4.18	1,810,393.45
Fruit farming	0.30	150,020.58
Tree nut farming	0.24	49,684.84
Greenhouse, nursery, and floriculture production	4.82	1,784,644.01
All other crop farming	39.90	11,497,536.66
Cattle ranching and farming	147.11	18,190,856.93
Dairy cattle and milk production	16.45	2,630,340.81
Poultry and egg production	0.36	254,812.24
Animal production, except cattle and poultry and eggs	15.99	639,588.30
Support activities for agriculture and forestry	65.39	71,196.21
Dog and cat food manufacturing	447.09	588,869,018.55
Other animal food manufacturing	18.42	28,943,016.05
Chocolate and confectionery manufacturing from cacao beans	2.09	1,887,958.77
Confectionery manufacturing from purchased chocolate	1.76	716,041.15
Animal (except poultry) slaughtering, rendering, and processing	117.64	37,739,017.49
Bread and bakery product manufacturing	21.74	4,043,159.96
Cookie, cracker, and pasta manufacturing	1.87	887,143.55
Snack food manufacturing	846.84	608,951,354.98
Coffee and tea manufacturing	13.82	11,711,351.39
All other food manufacturing	944.14	313,771,270.75
Soft drink and ice manufacturing	64.06	48,750,907.90
Farm machinery and equipment manufacturing	6.78	3,699,004.17
Other industrial machinery manufacturing	15.88	6,649,930.95

All 105 counties in Kansas have Implan models and agriculture contribution summary. These values do not factor in the retail environment of food sales. Food retail is important, but in order to provide the most accurate picture of what production agricultural and processing contributes to Kansas, the retail sector was omitted.
